THE ECO CHOICE

BAMBOO BAMBOO

The Worlds First Environmentally Friendly Banner Stand

Made almost entirely from Bamboo, VIRO is the ideal alternative to conventional display solutions for businesses looking to comply with their green policies. As Bamboo is a totally renewable resource that has never been used in the display industry before, VIRO creates a strong point of difference over competitor products without compromising on design, features and functionality. The easily changeable graphic is printed on a eco canvas material.

VIRO - a future leader in banner stands.
